The spherical cow is a humorous metaphor for highly simplified scientific models of complex real life phenomena. Originating in theoretical physics, the metaphor refers to physicists' tendency for reducing a problem to the simplest form imaginable in order to make calculations more feasible, even though the simplification may hinder the model's application to reality.

Lukanka (Bulgarian: луканка) is a Bulgarian (sometimes spicy) salami unique to Bulgarian cuisine. It is similar to sujuk, but often stronger flavored. Lukanka is semi-dried, has a flattened cylindrical shape, and brownish-red interior in a skin that is normally covered with a white fungus. The mix of small pieces of meat and fat give the interior a grainy structure.

While you can froth cow or goat milk with ease, it's more difficult to froth plant-based alternatives. The key is protein: without protein, you won't get a good froth. Soy milk, which has nearly as much protein as dairy milk, froths quite well. But you'll have a hard time working up a nice froth with almond or rice milk.
