Hands-on Labs for Security Education Started in 2002, funded by a total of 1.3 million dollars from NSF, and now used by over a thousand educational institutes worldwide, the SEED project's objective is to develop hands-on laboratory exercises (called SEED labs) for computer and information security education and help instructors adopt these labs in their curricula.

SEED Project

Our mission at Hands-On Labs is to help educate the scientists of tomorrow, regardless of where they are today. No longer limited by distance or circumstance, instructors can teach more, students can learn more, and universities can grow.
