I'm between stick welders. I don't have a ton of money or room either. I've been looking at a couple of old IdealArc 250/250s from the 1980s. These seem to be generally well regarded, and at 140 amps DC or less have 100% duty cycle, which makes them enormously more usable than a buzzbox with its pathetic 20% duty cycle.
