Onan is known for its standby generators. However, they also make portable generators, especially those that go in RVs. Many Onan generator models can run on gasoline and liquid propane. Their generators are typically compact and relatively quiet. They often sell generators in portable shells that protect them while muffling the sounds it makes.

In the middle of a 7,300 mile circuit of North America in 2011, we discovered that the Onan MicroQuiet 3600LP generator in our 2006 Itasca Navion wouldn't start. We had not run it in many months (we are infrequent generator users). Online research eventually revealed a common cause: a restriction of the "regulator vent hose" on the generator.
