Oragami Frog From Square Paper
Origami paper, often referred to as "kami" (Japanese for paper), is sold in prepackaged squares of various sizes ranging from 2.5 cm (1 in) to 25 cm (10 in) or more. It is commonly colored on one side and white on the other; however, dual coloured and patterned versions exist and can be used effectively for color-changed models.

Origami - Wikipedia
Traditional origami paper is colored on 1 side, and blank on the other. The first image in a diagram should have some type of symbol letting you know which side to start on. For example, if you should start with the blank side, you might see a square piece of white paper with a shaded corner turned up.

3 Ways to Make Origami - wikiHow
First, fold a square piece of paper in half both ways, unfolding it after each fold so that the paper has 2 intersecting creases. Then, crease the paper in half diagonally both ways and unfold it until the paper has 4 intersecting creases. Bring the 4 corners of the paper together, flatten the base, and rotate it so it looks like diamond.
