Extended MAPI has been a long

requested enhancement for

PowerBuilder. In PowerBuilder 12.6

Extended MAPI was implemented with

the interface unchanged. This means

that existing PowerBuilder applications

will continue to work without modifying

the Powerscript source code.

Unfortunately there is not much out there for PB, compared to other languages. Here are some useful resources on the web: Back when I was writing PB I found Google Groups was a great resource for finding information about specific issues with PowerBuilder code.. Terry Voth runs a website called Sequel's Sandbox that has a lot of useful PowerBuilder resources.
